Please email completed application along with pictures of proposed structure or addition to **ashmoorparkehoa@gmail.com**. Pictures must be a true representation of what you plan to build, including but not limited to, materials (brick, screens, siding, etc.) that will be used in construction. Any deviation from the description/pictures which form a part of this application require Board review & approval; and may result in a withdrawal of approval previously given. If plans are deviated from, and legal action is required, all legal fees will be at the expense of the homeowner.

I have reviewed the APHA Restriction applicable to my application for architectural modification, and agree to abide by those restrictions and the recommendation of this Board. I understand that a change in the exterior materials used in construction could cause withdrawal of approval, and I agree to obtain approval of any such change before implementing it. I will be responsible for any legal fees incurred by the HOA if I do not comply with approved plans.
